EXTRA VOLUME I.

Dr. J. M. Toner, who was born in Pittsburg, Pa., in 1825, and died in Washington, in 1896, is well known as an earnest student of American History. He prepared this Index to Meade's Old Churches and Families of Virginia for his own use, and the manuscript copy, in his handwriting, was found a few months since, on the occasion of removing the Library of Congress to its new quarters, in the valuable collection that he presented to the Government. He based his work on the issue of Meade of 1861, which varies in some slight respects from the first publication in 1857. The chief difference is the addition of a page and a half at the end of volume II, which closes with page 496, while its companion of 1857 closes with page 495. A very few insignificant changes were also made at other places in the text, in 1861, but the pagination, beyond the modification noted above, remains the same, and corresponding pages in the two issues begin and end alike. Since 1861 there have been several re-issues of Meade, but the plates of that year have been used unchanged. This Index thus fits every copy of Meade except that about a score of references, mainly to pages 495 and 496 of volume II, will not be found in the original copy of Meade of 1857.
